TECHNICAL SKILLS

- HTML
- CSS
- Javascript
- Python
- MongoDB
- JQuery
- Node.js
- MySQL
- Epic
- MS Office

PROJECTS

Divvy
A bill splitting application for those share a home space or business. This app makes it easier to split bills that are common to a household i.e. internet, water, power, etc. With Divvy, you are able to store past bills paid under an exclusive username (with password security). I was responsible for the UI.
Technologies: HTML, CSS, Javascript, jQuery, Sequelize, (for full technologies list check application)
Application: *https://vast-gorge-37663.herokuapp.com/*
Github: *https://github.com/ramonavidallon/Divvy.git*

Dart Throw
A travel application that allows the user to choose between three randomized cities throughout the world and choose whichever city is more appealing. For this project, I was responsible for the UI.
Technologies: Javascript, jQuery, Bootstrap, CSS, HTML
Application: *https://ramonavidallon.github.io/Project-1_Dart-Throw/*
Github: *https://github.com/ramonavidallon/Dart-Throw.git*
